

STROKE = BRAIN ATTACK

Think **F.A.S.T.**

Facial Droop

If a person's smile droops to one side.

Arm Drift

If a person's arm drifts down when they hold out both arms with eyes closed.

Speech

If a person's speech sounds slurred, absent or abnormal.

Time

If a person fails one or more of these tests,
Call 9-1-1 immediately. They may be having a stroke.
