

Parkinson's Disease Support and Education Lecture Series

Communication, Feeding & Swallowing Issues

The AdventHealth Parkinson Outreach Center and Nova Southeastern University are partnering to offer a once-a-month, four-part lecture series on issues with communication, swallowing and feeding for people with Parkinson's disease. This program is free and open to anyone with Parkinson's and their caregivers.

These lectures will educate you on how to deal with changes in voice that most people with Parkinson's develop. Eating and swallowing problems will also be discussed. Swallowing problems can lead to weight loss, drooling and potential aspiration. This can occur without awareness and lead to aspiration pneumonia — one of the leading causes for hospitalization in Parkinson's disease.

This lecture series will be held from 12 to 1 pm at **Nova Southeastern University**
4850 Millennia Boulevard, Orlando, FL 32839

- January 29, 2019
- February 26, 2019
- March 26, 2019
- April 30, 2019

Facilitated by graduate student clinicians, Dr. Fred DiCarlo Clinical Supervisor, NSU PCHCS Department of Speech-Language Pathology and the Parkinson Outreach Center.

To register for the Communication, Feeding & Swallowing Issues lecture series, call the AdventHealth Parkinson Outreach Center at 407-303-5295.
